

TikiLIVE DVR Module

With DVR capability, users of the TikiLIVE app can record programs they want to watch so they don't have to miss their favorite content. They can access their DVR library from the app on any of our supported devices and watch content any time.

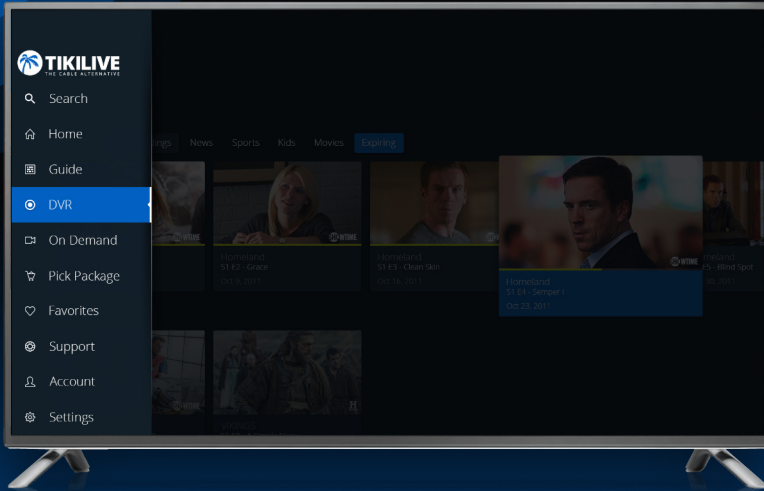

Schedule a recording with the DVR

Using the TikiLIVE app, users can record future programs and have them available through their account to watch later.

Accessing the DVR on your account

To access the DVR and your DVR files, you can do so from the slide menu of the TikiLIVE application.

How to watch a DVR'd video through the app

To watch your recorded content, you can access the programs from the DVR page.

Delete DVR recording

If you need to delete some of your recorded DVR content to make room in your account, you can do this by clicking Delete button.
